DCMA Mission and Vision

DEFENSE CONTRACT MANAGEMENT AGENCY

Mission

We provide Contract Administration Services to the Department of Defense Acquisition Enterprise and its partners to ensure delivery of quality products and services to the war fighter; on time and on cost.

Vision

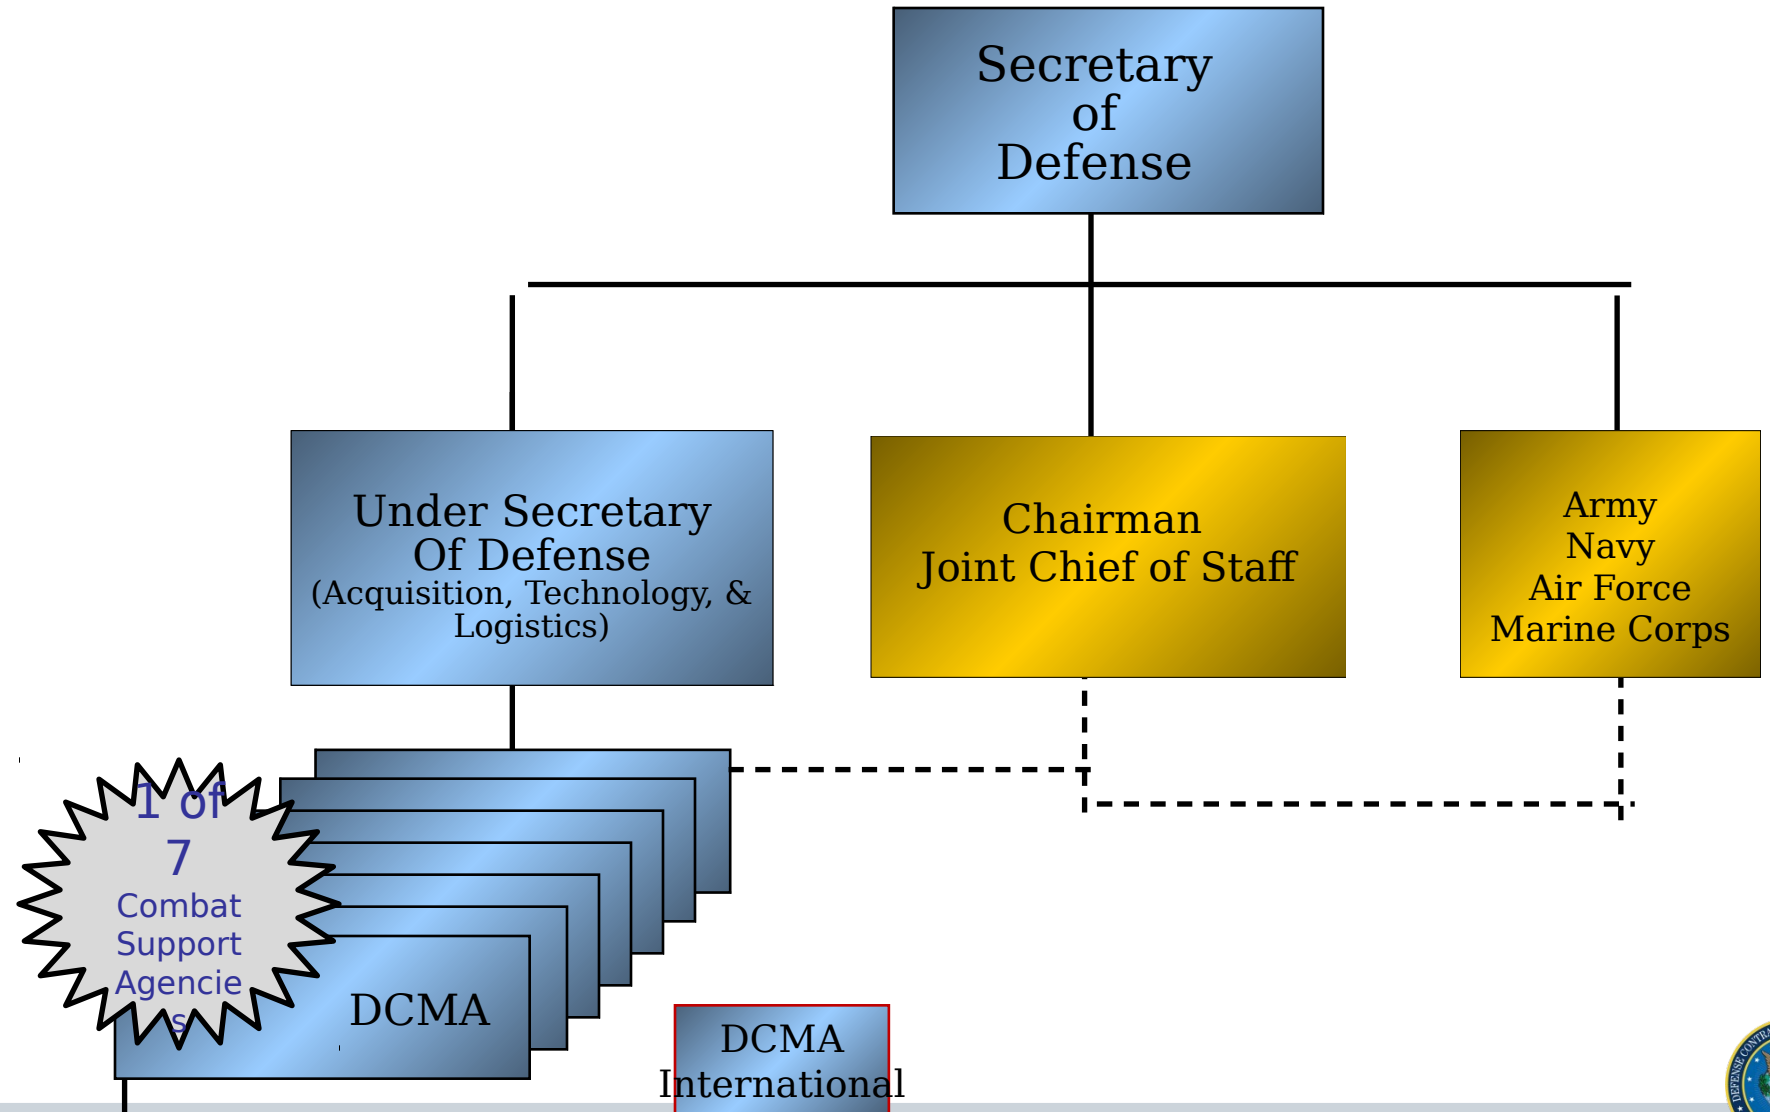

We are DoD's leading experts in Quality Assurance; Cost, Schedule, and Supply Chain Predictability and Contract Administration: enabling our partners to achieve contract objectives.

- Quality Assurance
- Delivery and Schedule Management
- Earned Value Management
- Engineering Support
- Software Acquisition Management
- Acquisition Planning Support Services
- Property & Plant Clearance
- Contracting
- Contract Safety
- Transportation

- DCMA Southern Europe Contracts include:
 - Ammunitions
 - F-16 Falcon Star & Common Configuration Implementation Program (CCIP)
 - E-3 AWACS
 - 105mm M1130 High Explosive Pre-Formed Fragmentation BB Cartridge Production
 - V-22 Osprey
 - MRAP
 - M-ATV

DCMA CCAS Mission

DEFENSE CONTRACT MANAGEMENT AGENCY

DCMA will deploy, provide Contingency Contract Administration Services (CCAS) personnel to the Area of Operation (AO), and administer delegated theater, external, and systems contracts to support the Geographic Combatant Commander's (GCC) and/or the Joint Task Force Commander's (JTF) concept of support as part of the Operational Contract Support (OCS) Team.

CCAS Operational Capability

DEFENSE CONTRACT MANAGEMENT AGENCY

- CCAS **includes** the administration of theater contracts such as the U.S. Army's Logistics Augmentation Program (LOGCAP), the U.S. Air Force Contract Augmentation Program (AFCAP), and the U.S. Navy Global Contingency Construction (GCCC) and Global Contingency Services (GCSC) Contracts (GCSC); and systems support contracts with place of performance in theater.
- CCAS **provides** Administrative Contracting Officers (ACOs), Contract Administrators (CAs), Quality Assurance Representatives (QARs), and Property Administrators (PAs).
 - Contract administration support may include processing contractual changes, requesting pricing estimates, approving invoices, assisting with payment issues, approving material requisitions, performing technical support reviews, sitting in on monthly performance evaluation boards, and performing contract closeout functions.
 - Property administration for contracts that contain Government Furnished Equipment or Contractor Acquired Property.
 - Will develop a Quality Assurance Surveillance Plan (QASP) and perform both process and product audits.
- CCAS **assists** in the training of Contracting Officer Representatives (CORs) from the service components to perform general contract quality oversight functions.

DCMA is brought into the discussion as soon as possible during the contracting process. The Procuring Contracting Officer (PCO) is responsible for :

- Receiving the contractor's Theater Business Clearance (IAW DFAR 225.74). The TBC ensures: The contracted effort to be accomplished in designated area(s) of operations, along with any associated contractor personnel, are visible to the Commander; contracted effort is in consonance with in country commanders' plans; Solicitations and contracts contain appropriate terms and conditions; contracted effort will be properly overseen in designated AOR's.
- Delegating, in conjunction with the COCOM, the contract to DCMA. A matrix of responsibilities that can be delegated are found in FAR 42.302

The delegation to DCMA will activate the Initial Response Capability-Team (IRC-T). The IRC is the first concrete step in the FOB start-up process.

DCMA Initial Response Capability

DEFENSE CONTRACT MANAGEMENT AGENCY

- IRC will provide contract administration oversight capability within 72 hours of authorization to deploy to the AO.
- IRC Value to COCOM
 - Business broker ensuring requirements (Supplies and Services) are delivered on time, within Projected Cost/Price and meet Performance Requirements.
 - Management and Contract Oversight
 - Planning Guidance
 - Capture/Distribute Lessons Learned
 - Training to Commanders and Contract Administration Personnel
- IRC Can be Called Upon to Provide Assistance during:
 - Contingency Operations (Combat and Non-Combat)
 - Military Operations Other Than War (MOOTW)
 - Humanitarian Assistance
 - Peacekeeping Operational Requirements
 - Disaster Relief

Theater contracts that **can** be delegated to DCMA:

- Translator and interpreter contracts.
- Foreign Military Sales (FMS) and Security Assistance contracts (for arms and equipment).
- High risk contracts requiring Government Property Administration (GPA) support.
- Contracts requiring commodity specific QA support .
- High risk contracts requiring traditional material surveillance and receipt inspection i.e. ammunition and weapons.
- HAZMAT contracts.
- Complex service and commodity contracts with a periods of performance (including options) greater than six months, and requiring specialized oversight unique to DCMA.
- Contracts with security clearance requirements.
- Theater wide IDIQ and BPA actions, including those with multiple payments.

CCAS Contract Types

DEFENSE CONTRACT MANAGEMENT AGENCY

Theater support contracts that ***should not*** generally be delegated to DCMA:

- Simple commodity contracts under the simplified acquisition threshold (SAT). Simple contracts constitute one delivery, one location, and one payment, but not requiring specialized QA acceptance.
- BPAs and IDIQs with orders requiring only one delivery.
- All construction contracts. If construction is incidental to the performance of a service, only those functions that DCMA can support, will be delegated.

War Fighter Support

CCAS Mission

DCMA CCAS Mission

Role of the DCMA LNO

- LNOs coordinate closely with DCMA OCONUS offices, synchronize information flow through the Joint Staff LNO, and report to DCMA's Combat Support Center (CSC).
- The CSC Mission is to: Provide strategic interaction of DCMA's combat support functions surrounding deliberate planning, doctrine, and policy; support to operational commands...CSC serves as the agency's point of contact for all contingency operations, both foreign and domestic, including disaster relief and humanitarian assistance.
- LNO's ensure:
 - ✓ Smooth and continuous information flow between DCMA and supported staffs.
 - ✓ UCC Staffs know about DCMA missions and capabilities.
 - ✓ DCMA participation in crisis and deliberate planning.
 - ✓ That Oplans/Conplans are reviewed to leverage DCMA support.
